**Student Independent
Practice:**

Within the journal entry please describe the following in a minimum of two paragraphs:

**Writing
Prompt:**

Research has shown that one of the leading motivators for job satisfaction is having an employee recognition program. Employees will strive harder and apply themselves better if one is in place. Therefore, having this program can lead to happier employees who stay devoted and remain with the company for a long time. If your school has a student recognition program such as Student of the Month, what improvements would you like to make to it? How could these improvements be more inclusive and reflective of the achievements of the student body? Would a new or revised program be more reflective of the student body's values?

The Union Agriculture Education Department would ask that you complete the journal entries utilizing the AET. However, if you are unable to access the AET system for any reason please utilize paper and pencil. All journal entries will be graded accordingly.
